Health in the 2030 Development Agenda | Off on the Right Track?

Dr. Kira Fortune
Acting Chief, Special Program on Sustainable Development and Health Equity

Rio de Janeiro, 2016
Reflections on Regional Progress

The Millennium Development Goals in the Americas:

- Reduction in child mortality
- Combating infectious diseases
- Increased access to improved water and sanitation
- Poverty reduction
- Increased access to schooling and infrastructure
Despite the fact that Latin America and the Caribbean is a middle income region, the Region is one of the most unequal region in the world with regards to income levels (PAHO, 2012).

Recent evidence demonstrates that more than 1 in 4 residents of the Region lives in moderate poverty (on less than US $4 a day) (World Bank, 2015).

28 million people in the Region live in extreme poverty (on less than US $1.25 a day) (World Bank, 2015).
• PAHO is strongly committed to putting equity firmly on the agenda

• Equity and the Social Determinants of Health are key priorities in Health Agenda for the Americas 2008-2017

• Addressing inequities through the approach of the social determinants of health and Health in All Policies is one of the objectives in PAHO’s Strategic Plan 2014 – 2019
Through public consultation, Member States identified Five Key Pillars:

- Monitoring progress
- Governance to tackle the root causes of health inequities
- Global action on social determinants
- The role of the health sector
- Promoting participation

A key outcome of the Global Conference was the *Rio Political Declaration*.
The Shift from MDGs to SDGs
**SDG 3 and its 13 Targets**

**SDG 3**

**Ensure healthy lives and promote well-being for all**

<table>
<thead>
<tr>
<th>Target</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>By 2030</strong>, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.</td>
<td></td>
</tr>
<tr>
<td><strong>By 2030</strong>, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases. By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.</td>
<td></td>
</tr>
<tr>
<td><strong>By 2020</strong>, halve the number of global deaths and injuries from road traffic accidents. 3.7</td>
<td></td>
</tr>
<tr>
<td><strong>By 2030</strong>, reduce the global maternal mortality ratio to less than 70 per 100,000 live births.</td>
<td></td>
</tr>
<tr>
<td>Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol. By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination. By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes.</td>
<td></td>
</tr>
<tr>
<td>Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control in all countries, as appropriate.</td>
<td></td>
</tr>
<tr>
<td>Support the research and development of vaccines and medicines for the communicable and noncommunicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreement on Trade Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all.</td>
<td></td>
</tr>
<tr>
<td>Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all.</td>
<td></td>
</tr>
</tbody>
</table>

**Substantially increase health financing and the recruitment, development, training and retention of the health workforce in developing countries, especially in least developed countries and small island developing States.**

**Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks.**

**Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all.**
Ensure healthy lives and promote well-being for all

- **Target 1.3**: Implement social protection systems for all
- **Target 6.1**: Achieve universal and equitable access to safe and affordable drinking water
- **Target 5.2**: End all forms of violence against all women and girls ....
- **Target 16.1**: Reduce all forms of violence and related death rates everywhere
- **Target 2.2**: End malnutrition, achieve targets for reductions of child stunting and wasting
- **Target 4.2**: Ensure access to early childhood development, care and pre-primary education

Other goals and targets e.g. 10 (inequality), 11 (cities), 13 (climate change)
PAHO’s Role

Region of the Americas is a global leader in driving forward this initiative being the first Region to establish a Plan of Action with training being rolled out by PAHO across the Americas.

Our responsibility is to become more compelling advocates for Health in and beyond SDG 3 and encourage global, regional, national and local actors to use multi-sectoral approaches.

Every SDG Requires Multi-sectoral Collaboration

Ensure healthy lives and promote well-being for all = 8 decent work and 2 zero hunger + 4 quality education + 6 clean water and sanitation.
Implementing the Vision: Delivery of Key Documents

PAHO’s 53rd Directing Council 2014

1. First effort to support implementation of SDGs, especially SDG 3

2. Compares SDG targets with current country health policies and programs

3. Highlights most relevant mandates & relevant partnerships

Prepares the Region of the Americas to Achieve the Sustainable Development Goal on Health

Our responsibility is to become more compelling advocates for Health in and beyond SDG 3.
Implementing the Vision:
On-going National Consultations

Goal: Provide an opportunity for dialogue between PAHO and country representatives on programmatic and technical resources, a platform to cross-reference national experiences and a recognition of the need for a multi-sectoral strategy to address health inequities.

Collaboration with Partners:
FioCruz and Sustainable Development Solution Network

Goal: Strengthen country capacity on the actual implementation of the SDGs.

Colombia (November 2015): regional workshop

Goal: Provide an opportunity for dialogue between PAHO and country representatives on programmatic and technical resources, a platform to cross-reference national experiences and a recognition of the need for a multi-sectoral strategy to address health inequities.

Recommendations to support countries in SDG implementation:
Roadmap and regional network
Implementing the Vision:
Health in All Policies

“An approach to public policies across sectors that systematically takes into account the health implications of decisions, seeks synergies, and avoids harmful health impacts in order to improve population health and health equity”

2013 Helsinki Statement on Health in All Policies

Health in All Policies (HiAP)
Focus on reducing health inequities using multi-sectoral approaches and identifying win-win situations with other sectors.

Region of the Americas is a global leader in driving forward this initiative, being the first Region to establish a Plan of Action on HiAP.

1. **White Paper**: options and opportunities

2. **Task Force and Working Group on HiAP in the SDGs**: Reference Note and Work Plan on harmonizing HiAP and SDGs agenda

3. **Capacity building**: training being rolled out by PAHO across the Americas
Implementing the Vision: Regional Review of Health Inequalities

Spotlight: Regional Review

- Partnership with Institute of Health Equity at University College London
- Purpose is to gather and synthesize quantitative and qualitative data concerning the associations between gender, equity, human rights, ethnicity and health in thirteen focus countries
- Key output is actionable recommendations that Member States can use to ensure that inequities are addressed effectively in their health policies
Implementing the Vision: Interagency Collaboration
PAHO-OAS Working Group (September 2015)

1. Aims to identify preliminary joint Inter-American and UN System actions for the SDGs and their targets

2. Mapping document with an analysis of each SDG will help align the SDGs with existing mandates and interagency collaborations

Five Year Goal (2016-2021)

Promote synergies, expand cooperation and establish a broader interagency alliance on the SDGs, with a focus on equity and social inclusion, that will unite other Inter-American and UN system agencies and Champion Countries.

• ECLAC, UNDP-LAC
• Colombia, Ecuador and Mexico

Enable the flow of information, promote dialogue between health and foreign affairs ministers, and identifying existing means and mechanisms that will facilitate the process.
Next Steps and Core Opportunities

1. **Amongst PAHO and country offices**
   - Roadmap to support regional and national implementation

2. **Amongst PAHO and regional institutions**
   - Regional network to mobilize existing experiences and exchange knowledge related to sustainable development and health equity

3. **Amongst PAHO and Other Sectors**
   - Capitalize on close alignment with Inter-American system, as well as the WHO and UN system
Are We on the Right Track?

The SDGs provide *unprecedented opportunities* to engage with stakeholders across the spectrum of sustainable human development.

PAHO has taken critical steps to actively participate in this new cycle of global commitment by translating the *agenda into practice* and *develop concrete actions*. 
Thank you
